

We thank you for your patience, understanding, and assistance as our office transitions into the digital age of medicine as we implement electronic medical records (EMR). Through our new record keeping system we are given the ability to grant patients access to certain portions of their medical records through the internet. The use of this is voluntary and not required, however offered to all patients. Following your visit today, we encourage you to try this new feature. You will currently be able to view active diagnosis, medications, and more. To register please follow the instructions below.

1. Visit www.myeyecarererecords.com
2. Under the login please locate where it says "If you have not registered Click Here", please press the Click Here Link.
3. Enter your Full First Name, and Your Full last name Social Security Number and Date of birth.
4. Your email address can be one you have given us or one you would like to use.
5. Your initial password is: **1234**
6. You can create a new password of your own liking.
7. Submit the registration.

When successfully registered your username will be your email address.

If you receive a page that says the registration was not successful please try again and check spelling of your name

If you are unable to register and require assistance please email: eyesightandsurgeryassociates@gmail.com , please be sure to give your full name and Date of birth and your best contact number. Someone will either email you back or call you. This feature is not available if the office does not have your social security number. The information on this website is secure and will not be shared for any purposes. We like our privacy and respect that of our patients.

Thank you for your help progressing into the Digital age!
